Dear Anup:

On behalf of Summit County Children Services and the more than 130 supporting agencies and organizations, thank you for your financial contribution given to support the 24th Annual Child & Family Awareness Month.

We hosted several new events and expanded others this year, such as offering a Senior Fair and Parent Education Series, adding a second Close-Up and launching a Facebook page ... all to support the primary mission of the month: educate the community about child abuse prevention.

This is a collaborative project that cannot be funded nor implemented by one agency alone. This type of collaboration is unlike any other for it brings together schools, churches, businesses, agencies, organizations, civic groups and individuals all working together for the betterment of this community. And, what makes it especially unique is we about to embark on the 25th year of Child & Family Awareness Month ... a milestone in its own right!!

Again, thank you for your ongoing support of this community-wide endeavor.

Sincerely,

Sandy DeLuca  
Project Coordinator  
Child & Family Awareness Month
